Soft Skills

- Collaboration
- Resilience and Multitasking
- Time Management
- Adaptability
- Critical Thinking

Technical Skills

- Languages: JavaScript, PHP
- Frameworks/Libraries: Node.js, React, Express
- Testing Tools: Playwright
- Version Control: Git, GitHub
- Project Management: Redmine, Kanban

Summary

Recent IT graduate skilled in software development, backend systems, and QA. Proficient in JavaScript, PHP, Node.js, and Playwright. Eager to grow and contribute to a collaborative team.

Education

- Bachelor of Science in Information Technology**
UNIVERSITY OF THE ASSUMPTION 2021 - June 2025
Successfully completed Capstone project: UA-TRAX Web-Based Ticketing System.

Experience

- Quality Assurance Engineer Intern**
Codebility June 2025 - Present
Assisted in QA testing of a live mobile app using a Kanban workflow. Documented defects by creating clear and accurate bug reports. Participated in weekly team huddles to stay updated on project status and QA progress.
- Agile Software Engineer Intern**
TWIST RESOURCES.inc Jan 2025 - May 2025
Contributed to QA and development tasks during Agile sprints using Redmine for task tracking. Developed Playwright test suites to improve coverage and reduce bugs. Attended 15+ tech trainings on Agile, Security, Full Stack, and Testing. Actively participated in daily stand-ups, sprint planning, and retrospectives.

Projects

- NewsApp – News Aggregator Web App** Jan - May 2025
Implemented RESTful APIs, Axios for HTTP requests, and search/filter functionality. Developed a modern news aggregator using React (frontend) and Node.js/Express (backend).
- UA-TRAX – Web-Based Ticketing System** July 2024 – May 2025
Led development of UA-TRAX, a Laravel Filament-based ticketing system. Implemented role-based access, analytics, and real-time email notifications. Enabled issue tracking and planning through custom dashboards and metrics.
